Invitation Letter

Dear _____,

I have now been to your home for so long and got to know how you are living and saw the beautiful Kenya. It is about time for you to see from where I'm coming and how I live. For that reason I would like to invite you to stay for three months at my place and I will show you around my country.

I will guarantee for all your expenses relating to your stay here and will help you with all the process you will need to get through for the visa application.

I look forward to welcoming you in Switzerland.

Take care and see you
